Hardworking software development professional driven to write code with excellence. Focused on usability, scalability and performance improvements. Always excited and looking forward to learning new skills and technologies.

### SKILLS

- **Programming Languages:** Javascript, HTML, CSS, SQL
- **Frameworks:** React, Next.js, Node.js, Express, Electron, Bootstrap, Tailwind
- **Version Control:** Git
- **Tools:** Trello, Github

### WORK HISTORY

#### **FULL-STACK DEVELOPER** | 04/2022 - Current

##### **Self-Employed**

- Managed full-stack applications from idea conception to deployment
- Maintained apps by pushing multiple updates to Heroku
- Responded to customer questions / suggestions
- Served as product manager - weighed client and business needs within the context of being the sole developer
- Used Git repository for version control

#### **ELECTRICIAN'S APPRENTICE** | 01/2022 - 05/2022

##### **GREER AND ASSOC**

- Followed industry standards to ensure safety and quality
- Observed and learned from journeymen professionals
- Created new organizational practice for central warehouse to increase efficiency and safety and cut down extraneous material costs

## **ESPORTS COACH | 09/2021 - Current**

### **XPLEAGUE**

- Helped kids ages 7-17 improve their gameplay for competitive play
- Promoted healthy competition and good sportsmanship
- Communicated with other coaches across the nation to coordinate matches

## **RECENT PROJECTS**

### **Calessia (Web App) | Deployed via Heroku 08/2022**

- Developed a web application that allows writers to increase efficiency and organization in their projects, regardless of complexity or length. Users can create articles and characters, as well as upload images, and have them be completely private for their own use. Once these are created, users can then:
  1. Connect characters, articles, and images to one another, allowing for seamless cross-referencing when managing larger projects,
  2. Easily create or delete articles, characters, and images, and
  3. Manage all aspects of their projects in real-time.
- Tech Used: React, Bootstrap, Trello

### **Portfolio (Website) | Deployed via Vercel 08/2022**

- Developed a website to showcase professional milestones and achievements as well as recent projects.
- Tech Used: Next.js, Tailwind

## **EDUCATION**

### **Middle Tennessee State University - Murfreesboro, TN | 08/2019 - 12/2021**

B.S. in History, Minors in Mathematics and English

### **Tennessee Technological University - Cookeville, TN | 08/2017 - 08/2019**

B.S. in Mechanical Engineering (Incomplete, Transfer)

## **CERTIFICATES**

### **Catalyst Full Stack Development Bootcamp (Covalence) | 08/2022**

Full Stack Development Certificate
